PRESS RELEASE
FOR IMMEDIATE RELEASE

***BINO WRAP™** – An easy-access solution for the outdoor enthusiast!*

The **BINO WRAP™** from OP/TECH USA offers great protection for binoculars while in use or in storage. It is extremely handy for use in the field as there is no need to fumble with a separate case– simply unsnap the closure and refasten it above the binoculars. A heavy-duty elastic band secures the neoprene **BINO WRAP™** to the binoculars. Its slim design allows it to be worn with a neck strap and can even be worn underneath a coat! The **BINO WRAP™** fits many different roof-style binoculars as it uses a combination of three separate snap configurations and the stretch of the neoprene. Available in black or "nature". Enthusiasts can spend more time looking through the binoculars than fussing with the case. **BINO WRAP™** is only from OP/TECH USA!

OP/TECH USA continues to innovate quality products to meet the ever-changing needs of the avid photographer and outdoor enthusiast. We feel you deserve the very best! For more information about our products, please call 800-251-7815, e-mail info@optechusa.com or visit us online at www.optechusa.com.
